What if your website looks impressive but no visitors to recognize your brand/business?

SEO being the only strategy to drive in more visitors to your website organically via Search Engines like Google, Bing, Yahoo, etc.

An SEO strategy becomes effective only when all the actions/tasks it involves aim to significantly improve the overall quality of a website or a brand's web presence (for the long-term).

When your perfect customer performs a Google search, Is your website where you want it to be?

The ever elusive search algorithm leaves many companies scratching their heads, jumping on the latest trends and wasting money on inefficient tactics. What works in one industry does not necessarily apply to your situation. Get SEO expertise and a customized strategy for your business to bring your website to where it should be.

MAP OPTIMIZATION

Google My Business is a free tool that helps your local business stand out on Google and attract new customers. Use the Google My Business app to connect with customers and keep your business presence up-to-date on Google Search and Maps.

How it works

1. Manage how your local business appears on Google Search and Maps
2. Edit your business information (e.g. address, phone number, and hours)
3. Respond to reviews, questions, and messages from customers
4. Share new photos and post updates on special offers and events
5. See how customers find and interact with your business on Google

What do we Optimize?

Proximity Based Google Maps Results

The current branding of Google's local product that helps you to be listed in local search results and provides current and future customers information about your business.

Rating

A numerical evaluation on a scale of 1-5. In local search, it refers to consumers ratings of a business quality, standard or performance.

NAP

This refers to 'Name, Address, Phone'. NAP data for any business should be consistent over the web.

Keyword

The word or phrase people enter into search engines to find businesses or websites.

Review

An assessment by customers that summarize their experience with a specific business, which can be done directly in Google to evaluate businesses.

CHOOSE FROM 3 SEO PACKAGES

1

The do-it-yourself SEO starter package (SEO Audit): Brand Reachers will provide a full diagnostic and website audit, with a clear road map for the strategies your business should implement to achieve SEO success.

2

The basic onsite SEO package (one-time SEO implementation): More in-depth than the starter package, Brand Reachers will consult with you on onsite strategies to improve your rankings and make them happen. This option includes a full competitive analysis and landing page optimization.

3

The complete hands-off SEO package (full monthly management): Brand Reachers will handle all aspects of implementation and maintenance. Ideal for businesses without the resources or in-house expertise to manage SEO. Including all the elements of the basic onsite package (competitive analysis and landing page optimization), the complete SEO package also includes link building strategies. All the elements of the basic onsite package (competitive analysis and landing page optimization) plus link building strategies included.

Extra charges apply to any additional offsite optimization strategies, such as web content creation, blogging, social media, online articles etc... Contact Brand Reachers for more information.

Choose the best package for your business, and get Brand Reachers SEO expertise working for you. We've been helping technology companies achieve their internet marketing goals for years. Get our award winning team working for you today!

We'd Love to Hear from You. If you have any queries or suggestions please contact us or send your request through email and you will get a reply from us within 24 hours.
